# General types of fluids found in vehicles:

1. Gasoline
2. Transmission Fluid
3. Brakefluid
4. Power steering fluid
5. Windshield fluid
6. Engine oil
7. Engine coolant
8. Air conditioning fluid

Macho!

If the dude doesn't care about the watershed,  
you think he would care about damage to his  
personal property.

Stay out of the streambed!  
Water Quality improvement and  
Restoration costs are prohibitive.
